Tesla Motors Superchargers Come to Rancho Cucamonga City Celebrates with Free Giveaways

FOR IMMEDIATE RELEASE

November 26, 2014

Rancho Cucamonga, California – In celebration of the opening of Tesla Motors new Superchargers at the Victoria Gardens Regional Center, the City is hosting a social media promotion for Tesla owners utilizing the Superchargers in Rancho Cucamonga. Beginning on Monday, December 1, 2014 at 8:00 a.m., the City will award special prizes to the first 12 people who post pictures with their Tesla vehicles charging at the new Superchargers on the City's official Facebook page or on Twitter @CityofRC with a hashtag #RCSuperchargers. Prizes include official Tesla merchandise and Healthy RC souvenirs.

Headquartered in Palo Alto, California, Tesla Motors was founded in 2003 as the premier electric vehicle manufacturer. Utilizing innovative lithium-ion battery technology, its Model S sedan can go from 0 to 60 miles per hour in 4.2 seconds and the range is 265 miles per charge.

Telsa Model S owners are able to enjoy long distance road trips in their vehicles due to the network of Superchargers located along strategic corridors nationwide. The development of the Superchargers are purposefully located along the most popular routes in North America with nearby amenities such as restaurants and retail centers. The Superchargers' advanced technology is capable of providing half a charge in approximately 20 minutes.

The Rancho Cucamonga Superchargers are optimally located 50 to 100 miles apart along the I-10 and I-15 corridors and serves as a convenient stop between the Los Angeles Metropolitan area and popular destinations such as Las Vegas, Palm Springs, Arizona, and mountain resort communities. In fact, the Superchargers in Rancho Cucamonga are expected to be amongst the busiest in Tesla’s network and is one of the largest built to date. The Rancho Cucamonga location has 12 parking stalls and are located in the northeast parking lot of Victoria Gardens adjacent to the AMC Movie theaters.

The presence of the Tesla Motors Superchargers in Rancho Cucamonga builds upon the City’s concerted efforts as an electric vehicle-friendly community which supports the Healthy RC initiative to promote a cleaner, greener Rancho Cucamonga. The City’s EV-friendly efforts include providing ten public charging stations at various locations, facilitating EV charger infrastructure through the development code, and streamlining the residential EV charger installation permitting process. The City’s efforts were recognized with Southern California Edison’s *EV Champions City* designation, the first entity in the Inland Empire to receive it and at the time one of only five cities in Edison’s service territory to achieve this distinction.
