## EVENT PLANNING CHART- SANITATION

---

The chart below is a guide to successfully plan proper sanitary conditions. If your event will be serving food and beverages, additional units would be recommended for proper comfort. More restrooms will be required to prevent guests from waiting in long lines.

How to use the planning chart:

1. Determine how long your event will last.
2. Determine approximately how many people will attend your event.
3. With this information, use the chart to calculate the number of restrooms needed to insure sanitary conditions.

### NUMBER OF HOURS FOR EVENT

People Attending	NUMBER OF HOURS FOR EVENT									
	1	2	3	4	5	6	7	8	9	10
1-50	1	1	1	1	2	2	2	2	2	2
