All new foster parents must attend a foster care orientation class. You will be contacted in regards to the date, time, and location of this orientation.

We make every effort to match the animal to you and your lifestyle. Some animals may need fostering for only a few days, while others may need to be in your home longer. We will work with you to ensure that you are comfortable with the animal, its needs, and the expected timeline for fostering.

As a foster parent, we want you to know that it is occasionally necessary to euthanize animals that have been in foster care. Although, this is an option of last resort, unfortunately it can occur.

By signing this form, you agree to the above statements and certify that the answers given above are true:
