Business and Employer Resources and Information

The City of Rancho Cucamonga recognizes the impact that COVID-19 has on businesses and employees. For a list of resources and information, please visit: <https://www.cityofrc.us/coronavirus>. The Business and Employer Section has some great resources that may be beneficial to your business.

Holiday Schedule - No service on these holidays

Christmas Day
Independence Day
Labor Day
Memorial Day
New Year's Day
Thanksgiving Day

When the holiday falls on a weekday, collections for the remainder of the week will be delayed by one day. There is no service interruption or delay when the holiday falls on a Saturday or Sunday.

Organics Recycling, Are You In Compliance?

Effective 2019, the State's Mandatory Organic Waste Recycling law (AB 1826) requires all businesses generating more than four cubic yards of solid waste per week and multifamily residential properties with five dwelling units or more that generate four cubic yards of solid waste per week, to arrange for organics recycling services. Burrtec offers food waste and landscape waste service to assist in complying with the law. Please see the schedule below. Note: The state law contains a trigger that will increase the scope of affected businesses in 2020, if waste reduction targets are not met.

Year	Cubic Yards Generated Weekly
2019	4 Cubic Yards (commercial solid waste, regardless of amount of organic waste)
2020	2 Cubic Yards (commercial solid waste, if state does not meet goal)

Organic Materials

Food
Waste

Landscape
Waste

You can comply by taking the following actions:

- Separate your organic waste from your trash and subscribe to food and/or landscape organics recycling service with Burrtec Waste Industries.
- Multifamily residential properties are required to establish recycling service for landscape organics only.
- Donate edible food to a food bank, or food rescue as appropriate. For food rescue information contact Community Action Partnership of San Bernardino County at (909) 723-1500 or Feeding America at (951) 359-4757.

You may be in compliance if:

- Contract landscaper removes landscape organics as part of their service and takes it to a composting facility for recycling.
- Food waste organics are back-hauled to a distribution center for recycling.
- Food waste is donated to a non-profit for distribution to those in need.

It is important that your business ensure compliance by contacting Burrtec at (909) 987-3717

Open for Business!

To assist with the economic impact on our community and business owners, the City of Rancho Cucamonga has created a list of businesses that are deemed essential and operating. At the City, we are privileged to be able to use our resources to try and help support these businesses during these trying times. We encourage you to continue to support our RC businesses! If you are a business own in this community and you would like to be included in this list, you can do so by completing this Open for Business Survey by visiting <https://bit.ly/addyourbusinessrc>.

OPEN FOR BUSINESS

The City of Rancho Cucamonga has created a list of businesses that are deemed as essential and operating.

- ✓ Newspaper
- ✓ Paper
- ✓ Paper tubes
- ✓ Phone books
- ✓ Plastic containers #1-#7
- ✓ Plastic milk jugs
- ✓ Styrofoam products
- ✓ Tin cans
- ✓ Tissue boxes
- ✓ Wrapping paper

Contamination of Recyclables Could Result in a Fee

Trash and other contaminants in the recycling or organics collection container(s) could result in a fee and non-collection due to contamination. If contamination is found, red-orange warning tape (as shown below) will be used to tape down the container lid. After the first warning, customers will be charged a \$46.84 contamination fee and the container will not be serviced as recyclable; it will be subsequently serviced as trash. Please note: the contamination fee will be automatically assessed if hazardous or biohazardous materials are placed in any collection container. Not sure about what goes in each container? Information is on the Burrtec website www.burrtec.com/rancho-cucamonga or call Burrtec Customer Service at (909) 987-3717 for assistance. As always, thank you for your continued support and cooperation!

TRASH OR OTHER CONTAMINATION FOUND IN YOUR CONTAINER. PLEASE CONTACT CUSTOMER SERVICE.

Mandatory Commercial Recycling - Is Your Business in Compliance?

California Assembly Bill 341 mandates businesses and public entities, generating 4-cubic yards of trash or more and multi-family residential dwellings with five or more units, to establish and maintain recycling service. Recycling not only conserves our natural resources, but can save money by reducing waste disposal costs. Burrtec recycling coordinators can assist in selecting the appropriate recycling service level, along with the necessary education and outreach to residents and managerial staff. Call our customer service department today to schedule a complimentary waste and recycling assessment.

Protect Your Community

If you have noticed a large amount of gloves, masks, and paper towels in your parking lot and would like a poster to hang up in your business window, please contact Environmental Programs at (909) 919-2635.

Are You Ready for Senate Bill 1383?

Senate Bill 1383 is an organic waste management requirement that will affect all businesses and multi-family complexes in California. The goal is to reduce emissions of short-lived climate pollutants in various sectors of the economy. Additionally, this bill will effect all food generating businesses such as grocery stores, wholesale food markets, food services distributors, and supermarkets. The goal is reduce food waste from ending up in the landfill. This can be done by arranging edible food to be sent to organizations or food recovery services that will collect edible food, or self-haul edible food to a recovery organization. This will commence in January 1, 2022. For more information, please visit: <https://www.calrecycle.ca.gov/climate/slcip>
