

2023 City Council Goals

These 2023 goals were developed and updated at the January 2023 City Council goal-setting session. As noted, many of these programs and projects are multi-year in nature.

The City Council identified the following set of strategic goals to accomplish within the next three years:

1. By the end of June 2023, the City Manager will present a partnership for consideration to the City Council to design and build affordable for-sale homes.
2. By the end of September 2023, the City Manager will provide recommendations to the City Council for the top two or three economic development initiatives from the Economic Development Strategic Plan to pursue in 2024 and 2025.
3. By the end of November 2023, the City Manager will present to the City Council findings of a review of all the current and proposed police facilities in the city with recommendations for incrementally improving the City's physical policing infrastructure.
4. By December 2023, the City Manager will present funding options to the City Council for the additional costs to build the bridge and widen the roadway to improve safety and traffic circulation, reduce vehicle miles traveled, and reduce emissions on Etiwanda Avenue.
