GRAND TOTAL FOR ALL REBATES

*Additional rebates may be available through Southern California Gas Company at SoCalGas.com and Cucamonga Valley Water District (CVWD) at CVWDwater.com.

TERMS AND CONDITIONS

1. Rebates are for existing residential properties only.
2. All energy efficiency rebate applicants are subject to random inspections. The customer agrees to fully cooperate with any authorized agents of RCMU. Customers who are found to not be in compliance with the Terms and Conditions will be billed for the amount of the rebate.
3. Rebates are available to all active customers of RCMU in all rate classes who are in good standing.
4. Proof of Purchase must be submitted with a rebate application, clearly showing the following information with regards to items installed: manufacturer, model number, quantity, and purchase price. Rebate application must be submitted no later than FOUR months from the date of purchase. No exceptions.
5. All equipment installed must be new (not used, refurbished, or available for resale); used at the service address listed in the rebate application; and replacing existing less efficient equipment.
6. Rebate frequency: A customer may only receive a rebate for the same product at the frequency indicated or in the program description language.
7. Customer agrees to use the equipment for its useful life or 5 years as a RCMU customer, whichever is less. By participating in the rebate program, the customer agrees to continue using the incentivized equipment for the service life of the product (as per the manufacturer's recommendations) or for five years, whichever is less. If the customer does not comply with this requirement, RCMU has the right to seek a refund for a prorated amount of the original incentive initially paid to the customer. If for any reason the customer ceases to be an RCMU customer or adds self-generation capacity, the customer will be billed on a pro-rated basis for the rebate.
8. Customer may not receive multiple rebates for the same equipment from RCMU but may receive additional non-RCMU rebates on the same equipment, if eligible.
9. Rebate will not exceed the cost of the purchased equipment. Labor, installation, taxes, and delivery charges are not eligible expenses for rebates.
10. Energy savings will be verified through metered usage. Customers whose metered usage does not conform with the estimated energy savings listed in the application are subject to a post-installation inspection. Customers found not to be in compliance with the Terms and Conditions of this rebate program, or to have provided false or inaccurate information in this application will be billed for a prorated amount of the rebate, or the full amount of the rebate, if appropriate.
11. RCMU reserves the right to modify this program at any time without notice.
12. RCMU assumes no liability for any equipment or improvements installed.
13. One rebate application must be filled out for each meter/account number.
14. Please allow up to 4 weeks for RCMU to process the rebate application.
