

## Lost and Found Pets

The Rancho Cucamonga Animal Shelter only accepts animals that are found within the City of Rancho Cucamonga. If you found the animal in another city and need to bring it to a shelter, we can provide you with a list of local shelters.

If you are willing to care for the animal and attempt to locate the owner, you can:

- Scan for a microchip at any local veterinarian, shelter or humane society.
- Speak with neighbors and local businesses to help determine if the pet is local or new to the area.
- Post "Found Pet" flyers in the area where the pet was found.
- Post on social media or other web-based resources, such as those listed below
